Product, Equipment, Service, & Training Solutions For Every Environment

AUTO-CHLOR PROGRAM

SPECIALIZES IN YOUR BUSINESS

For more than 85 years, we have been the **service leader in cleaning, sanitation, and food safety**. Auto-Chlor continuously leads the nation in quality, service, and superior cleaning solutions for restaurants, bars, hospitality, laundry, and healthcare operations.

Our experts in food safety and operational excellence can help protect your brand image and bottom line. You'll see the Auto-Chlor difference in our ability to overcome challenging soils and provide valuable insights as needs evolve. Our intense focus on protecting your brand image helps you **provide the best customer experience**.

SERVICE & SUPPORT

Our trained professionals are armed with in-depth industry knowledge and provide in-store training and consultation at every unit. Training is available on a scheduled basis, as well as on demand.

FOCUSED PROGRAMS

Our programs simplify your operations, reduce labor, and lower total costs. Patented product formulations, innovative dispensing system technology and on-site training work together to meet your evolving needs and ensure guest satisfaction.

INNOVATION LEADER

Our technology helps you stay ahead of the curve by providing you with sustainable, easy-to-use products. Our food safety, research and development, and engineering labs are dedicated to advances in cleaning and sanitization that lead the industry. Our focus on sustainability leads to less water consumption, less land fill waste, and innovative tamper-free packaging.

NATIONAL COVERAGE

You can trust Auto-Chlor to deliver strong, consistent service that enhances your brand, while you expand. We currently partner with over 100,000 customers throughout the U.S. that will attest that we can support and protect your brand.

SERVICE & SUPPORT

Trained Auto-Chlor Representatives provide coaching, training, and guidance at the store level. Multi-unit/regional training is available upon request.

On-staff Regulatory Specialists and Chemists can consult on emerging food safety issues and train on evolving regulations.

Highly trained **Account Representatives** can help solve problems on-site or perform testing in our labs to find the solution you need.

FOOD SAFETY

The Auto-Chlor program puts **the right products and tools** in the hands of your employees to help you put the safest food in the hands of your customers.

Hand hygiene is critical to your business. We offer a variety of **handcare products** to help reduce the risk of transmission of foodborne pathogens and spread of foodborne diseases.

Protect your customers by having **the right sanitizers and hospital grade disinfectants** in place to help prevent the spread of bacteria and viruses.

EXTERIOR

Your customer's experience starts the moment they pull into your parking lot. Maintain **exterior surfaces** with Auto-Chlor products that target tough, greasy soils. Take the labor out of removing these **stains on concrete and asphalt** with heavy-duty degreasers and industry-faced formulations that require less effort and time.

LOBBY & DINING

Our unique Auto-Chlor program is designed specifically for enhanced décor packages. It makes cleaning **fast, efficient, and safer** – taking the challenge out of cleaning multiple surfaces.

Nothing says clean more than sparkling glass, and it starts at your front door. Our complete line of **glass and surface cleaners** help you make a great first impression.

Clean floors are safer floors. We offer a broad range of **floorcare** products to help you effectively and efficiently keep floors clean and reduce the risk of slips and falls.

RESTROOMS

Your customer's first visit to your store may begin and end at the restroom. A **clean and odor-free** restroom gives the impression of the overall cleanliness of your store. We offer a full line of restroom products that will keep your restrooms clean, sanitized, and fresh, leading to return customers. Protect the health and safety of your customers, by using **hand soaps and hand sanitizers** that also help reduce waste and save you money.

BACK OF HOUSE

Designed with sustainability in mind, cleaning systems provide patented solutions for exceptional results in **manual washing systems**. Less weight, less packaging, less storage space, and direct delivery all add up to more benefits for your operation and for the environment.

Eliminate grease build-up on kitchen surfaces with our best-in-class **degreasers**. Front vent hoods to fryers to all equipment surfaces, our degreasers deliver powerful cleaning results.

Food safe sanitizers are a critical part of any food prep environment. Auto-Chlor has you covered with a selection of highly effective food contact no-rinse options.

Add our stainless steel cleaner to maintain that shine and make your kitchen easier to manage.

MACHINE WAREWASHING

Warewashing is where Auto-Chlor began over 85 years ago. Auto-Chlor's line of Energy Star® Certified commercial dishwashers is known throughout the industry for focus on providing sustainability and durability, while guaranteeing one pass results. Our staff of trained technicians provide preventative maintenance to keep you running and are trained to ensure your team is ready for when business peaks.

- Reduce the amount of labor required to wash your wares. In addition, reducing water and chemical usage has always been a focus of Auto-Chlor's industry leading equipment.
- By equipping your kitchen with either low temperature or high temperature equipment and sanitizers, you can have peace of mind knowing your wares are **sanitized thoroughly every time**.
- The Auto-Chlor Warewashing Program and training is administered by our service representatives, who help train your employees and **maintain the machine** so you can focus on serving your customers.

IN PERSON TRAINING SOLUTIONS

We have the right equipment, training, products, service, and support **for your business.**
